

March 14–16, 2012

# International Business Development Forum

## Be a part of the first B2B MONTREAL 2012 forum in collaboration with Futurallia

More than 800 business and public utilities leaders from around the world will gather in one of the most promising cities in the Americas for foreign investment.

Municipalities play an important role in the economic development of our communities. B2B MONTREAL 2012 is a unique occasion for those municipalities looking for new products and ways of doing business to meet companies that have expertise and knowledge in sectors such as: urban planning, water conservation, construction, engineering, lighting, snow, infrastructure, sustainable development, etc.

This forum conceived for small and medium size businesses, also targets municipalities looking for strategic, commercial or technological partnerships. Your time is optimized by the pre-scheduled B2B meetings.

### Sector of activities that this forum targets:

- Transport
- Information Technology
- Manufacturing
- Natural Resources
- Public Works

### Participate in B2B Montreal 2012 to:

- Create new partnerships within different sectors and countries
- Examine commercial, financial, strategic or technical partnerships
- Identify new business prospects
- Research and gather information on international opportunities

### How it works:
